

Ethics # _____

Indian River County 4-H Fair Show & Auction

Project Entry Form for

Indian River County-Bred Animal

To be considered for the Indian River County Bred Steer or Swine Award, the mother (cow, dam, or sow) of the project animal must have been on/in Indian River County soil at the time of servicing by either artificial insemination or live bull or boar. The offspring (calf or swine project animal) at the time of birth must be dropped/birthed on Indian River County soil. This rule is enforced to eliminate an exhibitor from buying a bred of cow or sow out of the County Limits and bringing it into the county and calling it an Indian River County Bred animal. The County Bred Steer or Swine is an award to recognize and support Indian River County producers of Beef & Swine.
